Hey! I'm almost done with our trial. Love the platform. We've got about 100 customers and did \$4,000 in revenue and just paid our first commissions today. Thanks Mark Thompson and the entire team. This has been a real blessing for our company

Such a badass platform !
We are still kicking ourselves the for not starting our biz with PKS lol

Wow! That's just great!
So it is very flexible. Way better than [redacted] :)

Mark, in anticipation of your offer I decided to set up a new project in the comp account you sent (thank you again for that!) and I wanted to let you know how amazed I am with PKS. Over the past couple of years I've investigated several of your competitors to move several of our 1SC legacy accounts, in come cases even setting up trial accounts. They don't even come close to the simplicity of PKS which nevertheless delivers some incredibly robust features. You done good! Don't know how many of our subscribers are candidates but this is a very easy promotion for us. Congrats on a super-impressive product! Best, Vic

Rozalia Eppie I'm celebrating here because I just tested and everything is working!!!! people who purchases go to Teachable directly! THANK YOU :)
I cannot believe I made all this by myself :P

Mark & Jordan, I've been a consultant in the corporate IT field now for 15 years. I decided last year to start down the digital marketing and affiliate marketing road so I can increase my income because you really can't scale up a highly technical IT company without finding other highly skilled people and it's been difficult to say the least.

When I started looking for ways to market and work inside this field, I've been met with obstacles, companies that offer one thing but really it's garbage or just not very well put together; or worse, companies that have a good product but their service is just non-existent.

Since I began with PayKickstart I've had nothing but wonderful interactions with your company, service people and the overall quality of your software. You have been there every step of the way, you have been able to answer questions quickly, follow ups actually happen before I even think of asking what's going on and your people are SO nice.

Then today I even get a follow up by the owner of the company! I'm shocked and so delighted to have found this product, your people and companies.

Once I get everything under me and built, your product suites of PayKickstart and DigitalKickstart as well as the other software you offer will be #1 in my book and I'll be touting your companies anywhere and everywhere I can.

Talk about a stand-up honest company that offers true value, support and overall quality throughout the whole process from pre-sales to post sales support and everything in between. You could have easily been like other companies and once you have my money, make it hard to get service, but it's been just the opposite.

I could go on for paragraphs about how impressed I am with your company and staff, and trust me, I will everywhere I can on the internet. Keep up the wonderful work everyone, it's clear to me that you are a company that's here to stay and strong.

Thank you,

Dan White
